## ODDFELLOWS BUY TWO UTILICONS

Members of the I.O.O.F. united war effort committee called at the provincial Red Cross headquarters recently to present a cheque for \$3,100 to buy a mobile canteen. On being informed by Commissioner F. W. Tuffrey that there was no need for mobile canteens at the moment, but an urgent need for utilicon vans (small ambulances), the committee agreed to convert the money for the purchase of two of those at \$1,500 each for the British Red Cross, and to give the remaining \$100 to the national bursary fund. The I.O.O.F. in this province has been a strong supporter of the Red Cross. Last year they gave two ambulances at a cost of \$1,750 each and \$1,500 for a bed unit in the Canadian Red Cross hospital at Taploy, England.

On Sunday, Rev. Father Gilla, of the Paulist Fathers of New York, will speak over the air on the "Catholic Hour" from Washington, D.C., over KOA, Denver, from 9.30 to 10 p.m., subject: "Patriotism or Nationalism." Also Rev. Father Venturi will speak from Toronto over the C.B.C. network with CBK, Watrous, carrying the broadcast, from 12.30 to 1 p.m.; subject: "Peace Plans of Pope Pius XII." These addresses are during the regular Catholic Hour broadcasts each Sunday.

## R.C.A.F. GUNNER READY TO GO

Throughout Canada, from dawn to dusk, keen-eyed young men from Canada and other Empire countries learn to become gunners in R.C.A.F. schools of the British Commonwealth Air Training Plan. Nothing is left to chance in the training of a gunner, for upon his sharp eyes and quick trigger finger depends to a large extent the efficiency of our Air Force. In this photo a young gunner of the R.C.A.F., with his Vickers gun, stands by the tail of a Fairey Battle ready for action.—Photo, Public Information.

## J. N. KELLY APPOINTED RED CROSS PUBLICITY DIRECTOR

J. Noel Kelly, formerly managing editor of the Vancouver News Herald, and latterly with the Vancouver Sun, has been appointed national publicity director for The Canadian Red Cross Society. This appointment was made by Hon. Mr. Justice P. H. Gordon, chairman of the national executive committee of The Canadian Red Cross. "The entire field of publicity touching the Red Cross has been surveyed," said Judge Gordon. "All of the leading newspapers in Canada have made suggestions and these suggestions will form the basis of Canadian Red Cross Society publicity under the direction of Mr. Kelly. It will be his work to co-ordinate the information arising from our overseas activities with that which arises from the national operations of the Society and, in co-operation with the provincial divisions, to provide the newspapers and other publicity media with exactly the material they have asked."

Mr. Kelly served in the Royal Navy in the last war and has an enviable thirteen years' record with the coast newspapers. He has won international recognition on numerous occasions in Time, Editor and Publisher, New York World-Telegram and the Washington, D.C., Times-Herald.

G. G. Coote, of Nantico, has been approached, asking his willingness to accept the Alberta Independent leadership.

At least one man of our acquaintance hopes the metal shortage will save him from the superfluity of pins in new shirts.

Two packages of paper goods received from Calgary last week were branded "Rubber Goods" and "Keep Away From Heat."

The Mid-West Paper Sales Ltd., which has been operating a sub-branch from Calgary in Lethbridge, will open an independent branch in this city on December 1st. It will have its own office and warehouse quarters, and George McRae will be the branch manager.—Lethbridge Herald.

James Tutt and Fred Padgett, of Bellevue, have been added to the directorate of the southern branch of the Alberta Motor Association. E. R. J. Forster, of Lethbridge, has been re-elected secretary-treasurer. A. M. Fisher, of Lethbridge, is president, and R. W. Greenwood vice-president.

## NEED FOR MORE INTENSIVE RECRUITING

The recent conference held in Calgary under auspices of Military District 13, and addressed by a number of the officers commanding, as well as a number of civilian delegates, tended to give a much clearer understanding of just what technical training and soldering in Canada includes.

The conference was presided over by Brigadier Harvey, V.C., M.C., officer commanding the district. Other officers speaking included Major J. H. Gainer, Col. H. C. Greer, Major A. V. Chase, Lieut.-Colonel Cunningham, Capt. R. P. Fitzgerald, and Lieut.-Colonel James Mess, civilian director of recruiting, Ottawa.

The visit to the Trades School at Victoria Park was a real eye-opener. Here courses were being taken by enlisted men in motor mechanics, drafting, metal and woodwork, machine shop, blacksmithing, tinsmithing, etc. It appeared to be a real 'hive of industry, and every soldier was more interested in his opportunity for advancement in skilled mechanism and thereby helping to defeat Scourge Hitler than in entertaining visitors. We met a few boys from The Pass who asked how things were going down in the peace country.

The conventionists were guests of the City of Calgary at a noon luncheon, with Mayor Andy Davison present to see that things were conducted in his own simple, yet good way.

The afternoon was spent at Saxe and Currie Barracks, where an opportunity was given to see the boys in drill and anti-aircraft and machine guns doing their excellent work. As dusk fell we gathered in the mess rooms to mingle with the boys, where a splendid luncheon was enjoyed. This was followed by an open meeting in the auditorium, where various war views were expressed and questions asked and answered. A consensus of opinion was gathered from this meeting favoring whole out-and-out conscription.

Canada needs more men in her fighting forces. Every young man of military age owes it to his mother and family to offer his services to help protect Canada, Canadian homes and mothers, wives and sisters from the possibility of the ravages by Hun hordes of Hitler.

Application forms, medical forms and other literature may be had or seen at The Enterprise office by any

## LEGION SMOKER MUCH ENJOYED

About ninety members attended the annual memorial smoker held in the Legion club room on Friday night of last week, when an excellent programme of music, speeches, singing, etc., was presented, coupled with a splendid display of refreshments.

The chair was occupied by the president, Mr. Ben Hobson.

A major item on the programme was Professor Harry Harrison, of Hillcrest. His performances were brought down the house, and encores were many. The professor introduced several of his newest magic and sleight-of-hand work that were real puzzles to the onlooker. Harry is very much in demand at entertainments.

## ALL SIXTEEN-YEAR-OLDS REQUIRED TO REGISTER

Satisfaction has been expressed by Hon. J. T. Thomson, minister of national war services, at the manner in which the youth of Canada is responding to the regulation calling for all persons to fill out national registration forms upon reaching the age of sixteen.

According to the bureau of statistics, 220,000 persons in Canada reached the age of sixteen during the past year. Of this number, approximately 112,000 were males and 110,000 females.

"Records of the national registration bureau for the same period indicate that the number of new registration forms reaching Ottawa compare favorably with these figures," said Mr. Thomson.

The registration of all persons in Canada upon reaching the age of sixteen is compulsory and penalties are provided for those who do not observe the regulation. Forms are available at post offices throughout the Dominion and postmasters have been instructed to explain them to those who wish to register. Separate forms have been provided for those who lose their cards, and it should be made clear to the postmaster which type is desired.

## UNEMPLOYMENT INSURANCE

Insured workers who lose their employment will not be required to accept any position which may be offered, Mr. W. E. McCutcheon, manager of the employment and claims office of the Unemployment Insurance Commission, Lethbridge and district, said in an interview this week.

It is a common misconception among workers that they must accept any position offered, and if such a position is refused that they will be deprived of their rights to the payment of benefits during the time they are out of work.

The act very definitely protects the worker against any attempt to force him to accept employment at a low standard of wages, or if the working conditions are less favorable than those recognized by good employers, or if vacancies are due to a labor dispute. He is also under no compulsion to accept employment, which requires him to become a member of any association, organization or union of workers, or, on the other hand, which requires him to refrain from becoming a member.

The act provides, furthermore, that a man whose claim for benefit payment has been disallowed, may appeal to a board of referees made up of an equal number of representatives of employers and employees.

Even if the board of referees disallows the claim, there is a further right given the worker that he may appeal to the umpire.

The act also states that the worker must be "capable of work." There is a very essential difference between unemployment insurance and health insurance, and benefits cannot be paid from the unemployment insurance fund if a worker is incapacitated through sickness.

## Value Of Propaganda

New weapons and new methods of combat now used in the second world war, have brought many strange expressions into common usage. "Fifth column," "Molotov bread basket," "balloon barrage," and numerous other terms, unfamiliar before the present war, now appear quite naturally in the news columns of our papers and radio press bulletins.

One important weapon, however, has an old name into which events of this war have put a new and wider meaning. That word is "propaganda," and it was introduced in its newest form by the highly publicized Dr. Goebbels.

Much has appeared in the news lately of the measures taken by the Russians in this regard. They have effectively disrupted German announcements, broadcast news of German losses in Russia, and otherwise harassed the rigidly controlled air waves of the Reich. There have been stories, too, of the brilliant "V for Victory" campaign launched by the British Broadcasting Corporation. Results of this clever piece of propaganda are recorded every day in uprising and unrest in the occupied countries. Vichy officials blame the unrest in France on this campaign, the full story of which will not be known until the people of the occupied countries have joined with the free democracies in the final destruction of Nazism.

### Use Other Methods

This, however, is only one way in which the B.B.C. is fighting and defeating Dr. Goebbels, just as effectively as the Royal Air Force is sweeping the Luftwaffe out of the skies. For twenty-four hours of every day the B.B.C. broadcasts authentic news and commentaries in every corner of Europe. These programs are given in all the European languages, including the dialects of isolated districts. That they are regularly heard in the occupied countries is known beyond a shadow of doubt, and this despite very rigid Nazi rulings and severe penalties for infractions of the verboten orders. Through secret means, known only to the British Government, the B.B.C. has a very good estimate of the people who listen to these programs. Letters, too, reach Britain by devious ways, telling of the hope and courage these forbidden broadcasts bring. Countless numbers who are now in bondage, suffering from every form of persecution, are looking hopefully forward to the day of their deliverance from the Nazi yoke. It is to hear what they recognize as truth, that the oppressed peoples of Europe risk their very lives to listen to the British programs. It is beyond doubt that they must be greatly heartened to know that elsewhere in the world strong forces are working to bring about their release, and that they will see yet another "new order" in Europe based on freedom, and relief from all those who are now under Nazi domination.

### For Final Victory

Particular effort is injected into programs, which are broadcast to all classes of people in Germany, and that these programs are heard in the Reich is corroborated by no less an authority than the diminutive Dr. Goebbels himself, who goes on the air frequently to refute statements made in B.B.C. broadcasts.

In France it is commonly stated that there are three governments—Paris, Vichy and the B.B.C. And so, on this front as on many others, a strong and unrelenting attack is being made. When the final victory is reached, those who have carried on this unending task, will take their place with others who have taken Nazi weapons and wielding them with a deeper courage and a greater conviction than the Nazis could ever have, have brought about ultimate victory for the forces of freedom and democracy.

### War Makes Many Changes

**Dinner At Savoy Much Simpler Than In Peace Time**

Noel Barber, in Overseas Daily Mail says: My mention of dinners reminds me that I did not dine at Savoy one week the strangest menu they have probably ever had. Sir Courtauld Thomsen gave a lunch to the new Governor of Bermuda, Viscount Knollys. There was an imposing list of guests, whose names were printed on one side of the menu. And on the other side, the actual menu. It consisted of only three words: Macaroni, Chicken, Sweet.

That was all. A good idea, too, except perhaps to the artistic head waiter, who took one look at the small slip of paper and muttered to me: "I don't know why they don't just print 'Food'."

The point is, of course, that you get just as much food as you need, and far less indigestion than you deserve—far less, anyway, than you would have got at the Savoy's old-time menus. I looked up one used for a party given about 50 years ago by the Duke of Orleans in the same room as this week's lunch.

On that menu were 18 courses and six different wines. It was considered bad manners to miss a course in those days.

### From Bombed Wood

### The Heart Of Norway

### Could Never Be Treated

**Food Sent To Europe Would Be Taken By Nazis**

Here are some facts in one day's news that bear on the proposal of Mr. Hoover to feed the people of the occupied countries of Europe—his plan for the women and children who are in dire need:

Germany has been taking from France 14,000 head of cattle a month, much of the wine so essential in a land of impure water, all the reserves of cheese, potatoes, sugar, beets, wheat and fruit.

Walther Funk, Germany's economics minister (that is, director of looting), was in Rome arranging with Italy for stripping the Ukraine of foodstuffs and other supplies and dividing up the spoils.

The German army in Rumania is now taking from that country its food reserves and clothing. Wearing apparel is so scarce that the price has skyrocketed.

Still, Mr. Hoover, with laudible purpose but with no relation to reality, continues to urge his plan. He talks of "safeguards." Can he really believe any could be devised that Germany would not get around or else just trample on?

If Germany will loot France of her own supplies when Hitler professes to seek the collaboration of Frenchmen, why wouldn't he loot her of our supplies?

If Hitler will take food away from Rumanians when Rumanians are fighting Germany's battles, what chance is there that he would respect signs saying that the food came from the United States, for which he has stated his contempt?

Finally, the arrangements going forward for the looting of the Ukraine show how consistently Germany pursues her policies. She is going to take what food she wants, wherever it is found—Milwaukee Journal.

### Museum Pieces

**Articles Of Clothing Worn By Hitler Strangled Out Of Germany**

Articles of clothing "guaranteed" to have been worn by Hitler have been smuggled out of Germany into Switzerland and Spain. The recipients have paid handsomely for the trophies.

This traffic in a notoriety's raiment is by no means new and accounts for the fact that a fair number of Napoleonic relics survive in museums all over Europe.

When a dictator dies national collectors become interested in his wardrobe. While buying the stuff in advance is always a gamble, the gamblers reckon that coming events are casting reassuring shadows before. Possibly they are waiting for a distinct and display that jockey which Adolf threatened to wear until the war was won—Glasgow Herald.

### An Effective Reply

**Ministry Of Food Shows Goebbels United Kingdom Not Bankrupt**

The British ministry of food announced it had made contracts with Argentina, Uruguay, New Zealand and Australia for 1,000,000 tons of meat. A contract with Brazil will be concluded shortly.

"This is the most effective reply to Goebbels' propaganda in South American countries that the United Kingdom now is bankrupt and cannot buy any more South American meat," a spokesman for the ministry said.

### For Bomber Pilots

**Special Prayer Used At Graduation Exercises In Ontario School**

"I wish for you chaps good hunting," Air Commodore G. E. Brookes, O.B.E., told the first class of bomber pilots graduating at No. 16 Service Flying Training School, R.C.A.F., at Hagerville, Ontario.

One of the most impressive moments of the wings parade came when Flight Lieutenant J. W. Jennings, station padre, prayed for the bomber pilots. The prayer, he said, was written by an officer of the general list at the Hagerville school.

Author of the prayer Flight Lieutenant Jennings read was not identified. It had been composed especially for the first class and may be used at all succeeding graduations.

"Cast about these pilots, Almighty God, the sure fabric of Thy holy spirit, that they may be gentle in their strength, steadfast in defeat and humble in victory," the prayer went. "Through the School, we beseech Thee, of their individuality, to the end that, devoting themselves wholly to their duties in Thy service, they be not lonely. Comfort those whom they leave behind, bring them back more full of Thy strength when Thy time of violence has passed away and we have peace."

### SELECTED RECIPES

Pie! England had them first. A flaky, thick crust, topped with a delicious, nourishing one-dish meal which consisted of meat, vegetables, gravy and seasonings made up the original pie as it was served in England centuries ago. The meat or chicken pot pie of to-day is a modern version of this early entree.

The traditional apple pie was developed many years later. The famous fruit pie, and some others, long have been looked upon as "larks" in desserts. Lemon, chocolate, custard and countless other fillings, have been perfected over a period of time, until to-day we find Webster defining a pie as "an article of food consisting of a pastry crust with any of various kinds of fillings."

### APPLE PIE MODERNE

6 cups corn flakes.  
(1 1/4 cups fine crumbs)  
1/2 cup butter  
1/4 cup sugar

1 quart pared, sliced apples  
1/2 cup sugar  
1 teaspoon cinnamon  
2 tablespoons butter

Roll corn flakes into fine crumbs. Melt butter, and sugar gradually and mix with crumbs. Reserve 1/2 this mixture; press the rest evenly over bottom and sides of pie pan.

Fill pie shell with apples; sprinkle with 1/2 cup sugar mixed with cinnamon. Dot with 2 tablespoons butter; sprinkle remaining crumbs over top and bake in moderate oven (350 degrees F.) for 1/2 hour, reduce heat to 300 degrees F. and bake one hour longer, until apples are tender. Yield: One 9-inch pie.

### Demand Her Rights

**Woman Held Up Express While She Finished Her Breakfast**

A woman passenger who demanded the right to finish her breakfast leisurely in a dining car held up the Pennsylvania Railroad Chicago-New York express train for 13 minutes. Trainmen wanted to shift the diner to a siding in the Harrisburg yards and take on a new car. The passenger refused to budge until she had finished her bacon and eggs. Baffled but discreet, the crew waited.

### What Plan Means

**National Church In Germany Would Supply Those Now Existing**

The Christian Science Monitor published the abstract of an alleged Nazi plan for a national church to supplant existing churches in the Reich and "annihilate" Christianity. The Monitor said that the scheme was advanced by Alfred Rosenberg, Nazi philosopher and policy-maker, but that this did not necessarily mean it would be carried out.

The Rosenberg version related, and only formed along military lines with the sword the symbol instead of the cross and "Mein Kampf" the credo instead of the Bible, the Monitor said. All other churches or religious orders would have to leave the Reich and there would be a strict ban on any religious group holding or receiving property.

There would be no priests, clergy or scribes in the new order, the Monitor's version related, and only Nazi party orators would have the right to speak in the churches, which would remain only in the architectural sense.

### Sheep-Dogs On Payroll

**Work Without Orders On Great Western Railway In Wales**

The Great Western Railway (reports a correspondent) has 25 sheep-dogs on its pay-sheets in Wales at places where sheep often break through the fences, not only endangering their lives but delaying the train's progress.

The dogs, working without orders, find obscure openings in fences through which to shepherd the flock back. They learn to develop "fine sense"; if they are caught between trains on adjacent lines they lie down until both have passed.

If maintenance men, working on the line, do not heed the noise of an on-coming train the dogs bark at them and refuse to return until the last workman is out of the way—Manchester Guardian.

### Hay Was Valuable

**Grass In Green Park, London, Allowed To Grow Tall**

Most picturesque London scene recently was haymaking in the Green Park. Nearly 40 loads were taken away in heavy carts supplied by a South London cartage arm which still keeps 40 Shire horses busy.

Normally the grass in the parks is mown. This year it was allowed to grow nearly three feet tall. "Of course," said one haymaker, "after cutting hay in this park one feels like setting up a lost property office."

### Gesture To Russians

The red flag of Russia flew over a British public building when E. Glavin Sanders, mayor of Exeter, England, ordered the Soviet flag hoisted as the city nazifies opened. As a gesture the flag was raised "as a protest to the gallantry of the Soviet people."

An annual total of 7,000 fatal accidents occurs in the homes of England during peacetimes.

## U. S. VESSELS MAY NOW ENTER BRITISH PORTS

Washington.—A general and rapid expansion of United States naval and military activity along the sea and air routes to Britain is expected in authoritative quarters to follow the revision of the Neutrality Act.

With the navy all set to start placing guns and gun crews on merchant ships as soon as President Roosevelt gives the signal, and with the Maritime Commission ready to extend its routes of commercial operations for the first time since the war began, Secretary Frank Knox strongly indicated the scope of enlarged operations.

Declaring the action of the representatives holds out "greatly increased promises of ultimate victory," Knox said that it means the United States itself can now determine how its merchant ships can best be used to get war supplies to any part of the world "where they can be usefully employed" against the Axis powers.

In other quarters, probable steps in the expansion of operations were said to include:

1. Extension of naval and air patrols and convoy escorts the rest of the way across the Atlantic to the British Isles. These American protective measures now operate only to the waters adjacent to Iceland.
  2. Establishment of American bases on the British Isles, or joint United States-British use, as necessary, of the bases already there.
- Other steps, it was said, might include:

1. Operation of American convoys through Gibraltar to Britain's Mediterranean ports, thereby cutting the time of deliveries for Egypt which now are routed around Africa to Red Sea ports.
2. United States army delivery of bombers across the Atlantic to Britain. This would be merely an extension (which some air officers have scribbled as unnecessary) of the army's present inland ferry command that now flies planes from factories to Atlantic coast departure points.

Three major types of guns are expected to be used in arming American merchant ships.

Navy Secretary Knox has said that, depending on their size, some ships will be given five-inch guns, others four-inch, and still others three-inchers.

Some of the five-inch guns will be dual-purpose, for both surface and anti-aircraft firing. The ships also will be equipped with machine guns effective against low-flying planes.

Manning these weapons will be crew of 10 to 16 men under command of a petty officer.

That, generally, is the way it was done in 1917-18 also, but the problem of defence today is expected to be somewhat different and may produce improvements as experience brings results on which to base them.

## Women Letter Sorters

May Soon Be Used In All Large Canadian Centres

Ottawa.—An experiment at present confined to Toronto and Montreal—use of women and girls as letter sorters—may be extended to other large Canadian centres, post office department authorities said.

Unable to employ men of military age, under government rules, authorities said they were hiring boys, older men and women for training to handle the Christmas rush of mail. Women have been employed as sorters in some smaller post offices for some time.

## Cannot Corner Supply

Shortage of Canadian Cheese Brings Action From Ottawa

Ottawa.—Because there is a shortage of cheese available for domestic consumption in Canada the dairy products board took steps to prevent any person from cornering the supply.

Under an order announced by J. F. Singleton, chairman of the board, no person without special authorization of the board will be permitted to hold cheese on Dec. 1 in excess of 35 per cent. of the amount he held on Dec. 1 last year.

## Former French Prisoners

Vichy.—Former prisoners Edouard Daladier and Leon Blum and the former allied commander-in-chief, Gen. Marie-Gustave Gamelin, were taken by airplane to their new place of residence in the Pyrenees. Their trial is scheduled to open Jan. 15.

## Publisher Speaks Out

Ingersoll Asks When United States Will Get Into War

New York.—Publisher Ralph Ingersoll, recently returned from a world trip during which he visited almost every war front, told in a front page editorial in his newspaper, PM, how it feels to be an American travelling around the world.

"It feels cheap," he wrote. "It makes you feel mean. You can never stop being embarrassed just because you are an American."

Noting that the Chinese "have fought our battle for four years," Britain for two years and Russia now, Ingersoll said that the American reaction "has been to express a willingness to lease and to lend."

"I think those two words lease and lend are the meanest words I have ever heard," he added. "I am ashamed of them."

The publisher said that to him only one question seems important now: "When are we going to get into this war?"

## Decrease In Immigration

Figures For Six-Month Period Show Big Drop

Ottawa.—A decrease of 23.7 per cent. in the number of immigrants to Canada in the six months ended Sept. 30 compared with the corresponding period last year was reported by the immigration branch of the department of mines and resources.

In the six-month period immigrants totalled 5,145 compared with 6,746 in the same six months of 1940. The report showed a decrease in the number of immigrants from the British Isles, the total dropping to 1,259 from 1,927. English immigrants totalled 1,083 compared with 1,008 last year; Irish, 95 against 129; Scottish, 88 against 208, and Welsh, 19 against 32.

Immigrants from the United States decreased from 4,160 to 3,679.

## BRITISH DRIVE IS PREDICTED IN MIDDLE EAST

London.—Heavy British air and naval blows at Axis shipping in the Mediterranean and at Italy's dwindling navy were regarded as the forerunners of a powerful offensive from Egypt against Axis armies assembled in Libya.

A hint that British forces in the Middle East may soon strike, now that Axis supply lines in the Mediterranean are weak, was seen in Prime Minister Churchill's statement that "it may yet be that as the war develops, military operations may make more extensive demands upon our shipping."

Informed sources, however, differed on where the British blow might be made. Some said that further development of the Russian-German fight for the Caucasus must be awaited before new tanks and planes of the Middle East forces are used in Africa.

Others said that if the ample reserves of men and supplies were not needed in the Caucasus, then a drive might be launched to sweep the Germans and Italians from North Libya and Tripolitania—which the British public has long awaited.

"It is a matter of economy to withhold any possible offensive until the R.A.F. and Navy smash communications so thoroughly that present forces in Libya will be compelled to fight alone," informed sources said.

The smashing is going on with "greater violence than ever before," Mr. Churchill told the House of Commons.

"In the Mediterranean, the enemy's losses have been particularly severe. There is evidence he has found it very difficult to reinforce or even supply his armies on African shores."

Later unofficial tabulations showed at least 116 Italian ships have been either definitely or "probably" sunk by the navy and air force since June 1. These include three liners of between 23,000 and 26,800 tons each and a substantial number of tankers carrying fuel without which Axis armies in Africa are helpless. In addition the R.A.F. has reported dozens of ships damaged at sea and in North African harbours.

Of Italy's warships, the British navy has sunk three of seven eight-gun gun cruisers, two out of 11 lighter cruisers, 82 out of about 60 destroyers and between 32 and 40 out of 120 submarines. The shortage of steel and labor was seen by observers as making improbable the replacement of these losses.

## Russia's War Prisoners

Say Communists Can Now Speak Freely For The First Time

Kuliyazhev, Russia.—S. A. Lozovsky, foreign office spokesman, said the first political conference of German war prisoners in Russia has been held and it adopted a message to the German people calling for an end to Hitlerism and creation of a "Free and Independent Germany," says Associated Press.

Russia's war prison camps have become "political clubs where Germans can speak freely for the first time," he said.

The message, to be dropped in millions behind the German lines, reminds the German soldiers that they are unprepared for a winter campaign and protracted war, Lozovsky said.

British United Press reports from the eastern front said all German thrusts were being thrown back, except in the Crimea, while Soviet troops were strengthening their positions and pounding ahead in counter-blows.

The Germans said the Luftwaffe was sending Russian troops retreating through the narrow Kerch straits, on the eastern edge of the Crimea, to the Caucasus. Other squadrons reportedly raided Sevastopol, Anapa and communication lines around Moscow.

Russia, in turn, reported Soviet dive bombers had wiped out a German cavalry unit of 2,000 men in the far south, where the Soviets said they have killed 5,000 Germans and advanced five miles in the Kalinin area north of the Russian capital.

In the Donets basin, sustained Russian counter-attacks were said to have advanced six miles at one point and captured a strategic half road junction at another.

The Germans claimed the occupation of important points north of Rostov, gateway to the Caucasus on the eastern tip of the Sea of Azov, and a new Russian attempt to break out of Leningrad reportedly was turned back.

## TRADE ADMINISTRATOR

Edgar Gordon Burton, 38, Toronto, general manager of the Robert Simpson Co., has been appointed retail trade administrator of the federal government's comprehensive price control program. Appointment of Mr. Burton to the most important post under the new price regulation policy was announced by the wartime prices and trade board. He will serve without remuneration.

## New Conservative Leader

Mr. Hon. Arthur Meighen Accepts Mantle Of Leadership

Ottawa.—Hon. Arthur Meighen accepted the leadership of the Conservative party and declared for "compulsory selective service over the whole field of war."

Arthur Meighen made a statement announcing his acceptance from his rooms in the senate after a final meeting with Hon. R. B. Hanson, present acting house leader, and members of the committee of three delegated to invite him to assume the leadership at the national Conservative conference here.

The new leader came out for the formation of a non-party government and declared the continuance of party control could not be justified if a ministry on a wider basis could be formed.

He charged despotic powers granted by parliament were being abused by the present Liberal government and such a government could not exercise such powers fairly.

The new Conservative leader's statement came just a few hours after Prime Minister Mackenzie King withdrew his statement that he would not introduce conscription for overseas service without consultation with the people.

## HEAVY NAVAL LOSSES CUT AXIS SUPPLY LINES

London.—Aviation circles predicted the heavy losses being inflicted by the British navy on Axis supply lines in the central Mediterranean would soon compel Germany to divert strong air forces from the Russian front to bases in Crete and Greece.

With British land forces in North Africa growing ever stronger, these sources said, it is imperative the Axis powers maintain sea communications with North Africa to meet a possible offensive to drive them out of Libya.

The Italian merchant marine, dismayed by heavy blows dealt its Mediterranean convoys by the British navy and air force, is stepping aside and letting German seamen take over many of its ships, British sources said. The swastika now is flying from many sailing ships and other convoys in the Mediterranean.

Nevertheless the Axis, in its effort to supply its Libyan forces, is going through one of its blackest months. Already November sinkings are put at 52 ships, including three Italian destroyers, and British officers say thousands of Axis soldiers and seamen and millions of dollars worth of war supplies have gone down. No ships are listed as severely damaged this month.

Since August, British surface ships, submarines and planes have sunk 108 Axis ships in the Mediterranean and heavily damaged 70 more, according to British navy sources.

The Mediterranean fleet now is centring its attention on a program of smashing every convoy which leaves an Italian port. The Axis African corps under Maj.-Gen. Erwin Rommel is said to be drawing on its reserve supplies, with its prospects of receiving effective reinforcements and new equipment diminishing daily.

## For Victory

### THE LOCAL PASTOR AND THE WEEKLY NEWSPAPER

It came to me the other day that I never have had a city pastorate, that all my charges have been in country villages and thriving towns. I count myself most fortunate that such is the case. A city is all right to visit and to buy and sell in, but when it comes to a home there is no place like a small town or village. And in my way as a village pastor I always have found a strong ally in the local paper.

The pastor of a village church is supposed to be endowed with supernatural insight and clairvoyant powers to possess special illumination from on high. He is supposed to know what new families have moved into the community, and their church affiliation; what households are to be congratulated or commiserated upon the birth of a baby; who is sick or has been involved in an automobile accident; what couples have lived together for fifty years in more or less harmony and are to celebrate their golden wedding anniversary; what boy or girl is going away to college or has "accepted a position" in the city; what three-year-old child had a birthday party. This knowledge is all very important, for it shows him where to send a card or a note and where to call. But, strange to say, no one ever thinks to give the minister this information over the word of mouth. He has to pick it up by himself as best he can, and discover it in the columns of the local paper.

I should hate to be pastor of a church in a town where there was no local paper. I don't know how I would get along. In the minister's efforts to improve a town he finds in the local paper a most efficient ally. The paper will print communications from "Vox Populi," "Mother of a Family" and "Old Resident." And there are editors of a crusading spirit who will back up reforms and sometimes take the initiative, even if their advertising falls off and subscribers say "Stop my paper."

The local paper is very generous in opening its columns to church news. Some ministers take advantage of this and flood the paper each week with announcements. In many cases the editor's generosity is not appreciated. Not long ago I heard a minister severely criticize a local paper for lack of enterprise and editorial ability. That week the paper carried twenty-one lines of church notices from this minister, which at 10 cents a line would have cost him \$2.10. Here was a man who was getting \$100 worth of free advertising for his church each year and

## SOCIAL CREDIT IS NOT RELIGION

Whether labelled as "Social Credit," "The New Democracy" or "Democratic Monetary Reform," the queer and almost incomprehensible theories of Mr. Aberhart and other leaders in these various campaigns are much the same. They are aimed at the creation of easy money, either by printing-press methods or the repudiation of public and private obligations. They appeal to the unfortunate, the disgruntled and the lazy, who are always ready to believe that there is an easy road to success, or a method to obtain riches without working for them.

Given full power to bring about the benefits of Social Credit in the Province of Alberta, the Aberhart government has failed to pay cultural dividends or fulfill other fantastic promises. Thus we see the Social Credit master-minds ready to support other political movements in which the same old theories are camouflaged. And so, in the Province of Quebec, it is not surprising that there has been an effort, in extending the Social Credit Monetary Reform campaign to appeal to the members of the Roman Catholic church. If it should seem to many as being incongruous that an attempt should be made to mix economics, politics and religion, it should be remembered that when it is a case of getting votes it is a question of results rather than methods.

However, the head of the Church in Quebec, Cardinal Villeneuve, has made it clear that there is nothing in common in the aims of the Social Credit and other similar movements, and the work of the Church. His Eminence has written to the clergy of the Archdiocese suggesting that the leaders of Social Credit in the province appear to want it to be understood that they have the approval of the clergy, and that their movement is a religious crusade. He suggests, further, the intention "to leave ordinary people with the impression that Social Credit is a fraternity of devotees."

Seeing that an effort is being made to make use of the Church for political purposes, the Cardinal has forbidden the clergy and members of religious orders from attending Social Credit meetings, and from lending their support to the movement. He refers to "electoral exploitation," but points out that the Church does not "attach itself to any party except the party of Jesus Christ." And he significantly observes that printed matter distributed by the Social Credit party in Quebec "breathes forth a breath which does more to excite revolutionary passions than it does to form the social mind or for the reconstruction of society."

Cardinal Villeneuve indicates that Social Credit, or other economic theories, should be judged on their merits and on their practical performance—not by their appeal to religious or other emotions or prejudices. And that is how Canadians generally should be prepared to judge the proposals of Mr. Aberhart, or others who would misguidedly, or ignorantly, or for political motives, seek to advance movements which in their disruption of established economic systems and social institutions are particularly dangerous at a time when the nation's resources in money and materials, as well as manpower are required for the vital war effort—The Financial Times, Montreal, Nov. 14.

Mr. Duncan, of the staff of the Edmonton Journal, was a visitor to Blairmore on Wednesday and Thursday of this week. He is a brother of the late Mr. Duncan who one time operated the Crag and Canyon at Banff.

did not show the slightest appreciation of the fact.

Thank God, there are forces which make for betterment in every community — and among these forces I count the church, the school, the public library, the town officers, the police, clubs and fraternities, and the local paper. And the local paper is not least. — Rev. Edgar Warren.

## A BIT ABOUT MY PREMIER

Alberta's premier made a speech in Winnipeg the other day, in the course of which according to Canadian Press reports, he told his audience (and the citizens of Canada through press reports) that "after the war you will pay \$2,000,000 a day in interest to institutions which loaned money to pay for the war effort," and he added, "it will never be paid." (Since this was written Mr. Aberhart says he was misquoted.) At another point in his address Mr. Aberhart declared his government was giving the federal authorities full support in Canada's war effort, citing as evidence the fact that his government had subscribed more than a million dollars to Dominion war loans. Knowing Mr. Aberhart as I do I am at a loss to understand how he could have been induced to hand over a cool million of Alberta cash to the Dominion government, knowing, as he assured us, that it would never be paid back. Somehow it doesn't seem to make sense. However, it may be that as the million went into interest-bearing war bonds he figures he will at least get the interest back and that this in course of time won't prove to be a too bad investment, even if the principal never turns up. Of course, the principal will turn up, as it always has, and as Mr. Aberhart knows it will. Incidentally I have my own opinion of any so-called "full support" in Canada's war effort that finds expression in interest-bearing war bond investment at a time when money is going begging for safe investment opportunity. Had the Alberta million been handed over as a non-interest-bearing loan it would have been a "full support" gesture worth mentioning. — E. J. W.

## RELIGION IN RUSSIA

Writing to The Financial Post, P. H. Geoghegan, of Los Angeles, California, states:

"There is a good deal said nowadays for and against aid to Russia. Those against it take the issue that Russia is an Anti-God form of government."

"In the writer's travels abroad, I found not all of Russia had deserted the Christian religion, and 'nobody living in Russia has the privilege of going to a house of worship, providing the man in the pulpit does not use the church for propaganda against the form of government of that country."

"The writer talked to a leading Russian and raised the question why the Russian public officials or courts do not use the name of God in their oaths, etc. He asked me to accompany him to the public library, where he referred me to history where Christian against Christian had warred against each other and had killed more than was killed in Russia at the time of the revolution there in the overthrow of the Tsar's form of government, which was built on Christianity. He quoted the Tsar's form of government as allowing the poor people of Russia to starve, while the rich had more than their share, and were spending half of their time or more in the capitals of Europe, and that the Russian resources, if properly developed, would feed double the population of Russia."

## STATE OUR POLICY TO THE WORLD

It will be welcome news to all except Wheeler, Nye, McCormick, Lindbergh and their friends when the Canadian government finds time to knock the props from under the isolationist canard that the Dominion is still making British pay cash for war supplies sent to her. Canada is not making the British pay cash; there have been no payments for the past ten months.

Wheeler, Nye, McCormick and Lindbergh probably have a fairly clear idea that this is the truth; but, until the Canadian government makes a formal statement to the country, they will be able to continue with their canard that we make British pay cash on the barrel head, and that we are very grasping people indeed. Ottawa should tell them that we are grasping only for victory, that England owes us nothing, that our resources are pooled for the use of every foe of Hitler. This is our common sense policy, for money and materials will do us little good if the Germans take them away from us. We should state our policy now for all the world to hear. The sound of it will bring no joy to Wheeler, Nye, McCormick, Lindbergh and Hitler; it will bring joy to many brave men who are fighting for us as well as for themselves on many fronts and under many flags.

Most local merchants have given orders, as far back as a year ago, for their supply of calendars for the year 1942. There is no need for it, for the same calendars could be ordered through The Enterprise as late as October of this year and be delivered, and the commission which went into the pocket of the travelling agent, and which helped him in his last Christmas festivities, could well have been kept to help someone in Blainville. Think it over, please, and if you desire local people to patronize you, you should in turn patronize local townsmen.

## HOTELS GIVING EFFECTIVE SUPPORT TO CANADA'S NATIONAL WAR EFFORT

In Canada, the tourist industry is of utmost importance. Over one million dollars was spent by Canadians to invite residents of the United States to come to Canada this year. They came. The money they brought and spent will exceed the money Canadians took abroad by almost \$300,000,000—without this money Canada's war effort and Great Britain's war effort would be greatly curtailed—without hotels. "Canada could not get this money," states H. A. MacLennan, president of Canadian Hotels Association and manager of the Royal Connaught Hotel, Hamilton, Ontario, writing in Canadian Hotel Review and Restaurant, Montreal and Toronto, Canada's hotel publication.

Illustrating how hotels have co-operated where scarcity of surplus of foods existed, Mr. MacLennan also pointed out that when Canada lost its export market for apples, "Apples appeared more often and in greater variety on hotel menus; apple juice became, well known; baked apples, apple turnovers, apple pie, apple sauces, brown Betty and other apple dishes appeared in profusion. Much of the slack in apple demand was taken up." In connection with the scarcity of butter during the winter and spring of 1941, and of bacon and ham at present, the hotels again co-operated, "by rearranging menus and by notes of warning to hotel guests, these foods were conserved and thus made available to Great Britain."

The article also points out that due to the large scale movements of population, including business executives, dollar-a-year men, military and naval officers and troops and industrial employees, a tremendous strain has been put upon hotel service. "Shortage of domestic servants has added burdens to the housewife. The hotel man has the same difficulty in securing competent employees, but at the same time the work to be done in hotels has increased by half as much again."

"A large demand has been put upon hotels for meeting rooms for patriotic organizations." In many instances hotels "provide free meeting rooms for all patriotic organizations of English war guests. Many hotel rooms were offered to the Children's Aid Society for the temporary housing of English war guests. Many hotel employees have filled special positions in the services. Army kitchens and officers' messes are staffed by those who got their training in hotels. Many stewards in the Navy came from hotel dining rooms. Many administrative posts have been well filled by hotel men."

"Here, however, hotel men have not been used to the extent that is possible. An example can be found in the Wartime Housing Programme in Hamilton. Here a hostelry (which is essentially a low priced hotel) has been built to accommodate almost 550 men. If a hotel man had been put on the local committee, many a headache may have been saved and many a dollar made available for other important uses."

The Newfoundland commission government reports a 52 per cent increase in revenue and a 7 per cent decrease in expenditure. How different from Alberta's true story.

## PROVIDING LAND FOR POST-WAR PERIOD

Designed to assist in problems of post-war rehabilitation in Alberta, a survey of suitable agricultural lands is being carried out by the department of lands and mines, Hon. N. E. Tanner, minister in charge, announced at a public meeting held in Edmonton last week.

Reports on the recent conference at Winnipeg, when the Democratic Monetary Reform Organization of Canada was formed, were given to the Social Credit-sponsored meeting by Provincial Secretary Manning, who was one of the Alberta delegates. Mr. Manning outlined the new set-up proposed for the reform organization. Thus, while we are starting out mainly as an educational movement, we will move into the political field if those in power do not bring about the reforms an enlightened people desire," he said.

Mr. Tanner emphasized the government was seeking to develop the natural resources of the province in the interests of the people.

Regarding an earlier soil survey, he said three large areas had been set aside for agricultural settlement. These areas were located in parts of the province where social services, such as highways, hospitals and other essentials could be more readily provided than if settlement were permitted to take place "in a scattered, haphazard manner."

The minister discussed the agricultural lease system which had been introduced by the government, to replace the former homestead system. Through the soil survey, a person was enabled to pick out prospective farm land and the department could state at once whether it was suitable for tillage.

Discussing the present soil survey, Mr. Tanner said land was being set aside in blocks, so that desirable territory would be segregated and "piecemeal" for suitability and productivity.

## COMPLIMENT

At the request of her fifteen-year-old son, a young Toronto matron the other day called at the neighborhood cleaner's shop to pick up his hat that had been left there for reblocking.

Asking for the hat, she said: "My son brought it in to you last week."

"Was that your son?" enquired the cleaner. "What a fine big boy he is!"

The young matron agreed. "You're sure that was your son that left the hat?" said the cleaner, showing incredulity.

Flattered by the implied compliment, the mother smilingly said that she was sure.

At the dinner table that night she told the story, only to have her pleasure spoiled when her son piped up: "But, Mother, it was Father who took the hat in." The Printed Word.

"V"

This week was supposed to be observed by business people throughout the province promoting the sale of Alberta-made and branded products. Blainville merchants apparently did not see it that way, and The Enterprise could not see the wisdom of boosting the affair single-handed. The province should send an advertising booster down here to waken up our business people.

## CONSCRIPTION DEVELOPS STEP BY STEP

Friday morning, close to two hundred "key men" met at the Palliser hotel in Calgary to hear officers of Military District 13 and Lieut-Col. James Mac, director of civilian recruiting, discuss the need of men in Canada's active army. Delegates were composed of Alberta newspaper men, mayors of cities and towns, and executive members of patriotic organizations, such as the Canadian Legion of the R.E.S.L.

Lieut-Col. Mac and officers of the military district were promised wholehearted support in a voluntary recruiting drive, but they were shown in no uncertain way, that the meeting was overwhelmingly in favor of conscription. A similar meeting in Vancouver at the latter part of last week, expressed similar views, and in both cases the visiting army officials promised to carry the feelings of the meetings to authorities at Ottawa.

Western Canada, at least, has shown that it is somewhat "fed up" with the costly voluntary recruiting campaigns. Letters have been addressed to boards of trade across Canada, urging employers to inform their staffs of military age that they should join the Services. Brigadier-General F. M. W. Harvey, V.C., district officer commanding Military District 13, recently expressed similar views and has appealed to employers to notify their employees that their positions will be filled by women, or men over military age, after a certain date.

This policy of the government's "passing the buck" to the employers of labor will never go over in Western Canada, and the Calgary Board of Trade has already informed the government to that effect.

Meetings have been held at Vancouver and Calgary, and will be held at Regina, Winnipeg and so on across Canada. If all meetings express the opinions of the two already heard, the Dominion government can have no choice, but must listen to their pleas. The Canadian public is coming to realize that a scientific system of compulsory national service is the only efficient and fair way of enlisting the nation's man-power, material and resources for the stupendous task which lies ahead—Drumheller, Mail.

"V"

A public meeting will be held in the Miners' hall, Blainville, on Tuesday night next at 7 o'clock, to be addressed by A. E. Smith, representing the National Council for Democratic Rights. This is Mr. Smith's first visit to Blainville since he officiated at the christening of Mayor Bill Knight's monument to Tim Buck—that famous Blainville boulevard. If he has a camera with him, he should picture it now.

## PROVINCE-WIDE RECRUITING TOUR AGAIN PLANNED

Another province-wide "recruiting tour" will be undertaken by twelve recruiting missions, commencing December 1st, Major J. H. Gainer, M.C., district recruiting officer, announced this morning.

The itinerary of the parties is now being drafted and will be released as soon as arrangements are completed, Major Gainer said.

Practically every town in Alberta will be visited during the campaign. One of the purposes of the drive is to contact men who were engaged in harvesting operations during the last drive and to re-contact men who had expressed a willingness to join up when approached during the last drive, and who have not yet reported for duty.

There are also a number of recruits throughout the province who were rejected in earlier medical examinations, and are now acceptable for enlistment, due to a lowering of the previous standard in regard to slight eye and ear troubles. These men may now be re-examined with every chance of being accepted.

Recruiting Officer Major F. H. Jenkins will visit Pincher Creek on November 29th, all day; Cowley, morning, Lundre, afternoon, and Bellevue, evening, of December 1st; Blairmore, all day December 2nd, Coleman all day December 3rd, and Pincher Creek all day December 4th.

## Large Salmon Pack

This Year's Pack The Second Largest On Record  
Canada's 1941 canned salmon pack is so large that not only will the Dominion be able to supply more than estimated United Kingdom requirements but "fears of a serious shortage on the domestic market have also been dissipated." It was shown in a prepared statement issued by Fisheries Minister Michael.

The minister's statement said Canada would be able to supply the United Kingdom about 200,000 more than the original 1,100,000 cases estimated under an agreement with the British government.

"At the same time the stocks available for other requirements will be large enough to prevent any acute shortage in supplies within Canada and to take care of export orders from certain countries such as Australia and South Africa," said the statement.

The pack in British Columbia, chief Canadian source of canned salmon, already exceeds 2,000,000 cases, second largest pack on record. In 1930 an all-time high of about 2,222,000 cases was recorded.

Mr. Michael's statement said that the output of canned sockeye exceeded expectations and is one of the largest in years. The pack of coho will set a new high mark, exceeding the largest previous production by more than 30 per cent. The pack of Chums will be well above average, more than offsetting some reduction in the pack of pink, fourth of the salmon species most used in canning.

## GAY VERSIONS OF CHILD'S FROCK

By Anne Adams

Two "pretty as a picture" dresses for a little miss—both from the same pattern! Both versions of Pattern 4899 by Anne Adams have a curving bodice panel that gives a "bolero" effect to the front of the dress, and which continues as a waistband in back. In one version it is laced up with a gay bit of ribbon ending in a bow at the collarless neckline. In the other version, the panel plus a rounded collar are made of contrasting fabric and accented by a row of buttons. Either frock may be made with long or short sleeves; both open at the back. So easy to make with the Sewing Instructor—why not make both dresses?

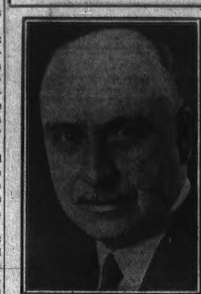

Pattern 4899 is available in children's sizes 2, 4, 6, 8 and 10. Size 6, dress without collar, takes 1½ yards 35 inch fabric and 1 yard ribbon trim; dress with collar, 1½ yards 34 inch fabric and ¾ yard contrast. Send twenty cents (20c) in coin (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

## SUNDAY SCHOOL LESSON NOVEMBER 23

### PRAYER AND THANKSGIVING

Golden text: Pray without ceasing; in everything give thanks. I. Thessalonians 5:17, 18.

Lessons: Psalms 103, 107; Matthew 9:3-18; John 17:1-26; Ephesians 6:18-21; Philippians 4:6; I. Thessalonians 5:16-18; I. John 5:14, 15.

Devotional reading: Psalm 107:23-31.

### Explanations and Comments

False and True Prayer, Matthew 6:5-8. Jesus bids his disciples be different from the hypocrites who desire to attain the appearance of righteousness rather than righteousness itself, stood in conspicuous places to be seen by others. They, the hypocrites, had received their reward that is, they had been seen by others and this was what they desired, they had no claim whatsoever to any further reward. When you pray, shut out the world and shut yourself in with God. Your father will reward you. Recall the parable which we studied in our first quarter lesson that illustrates false and true prayer.

"Good would it be for men if, remembering that life is something more than toil and struggle, they would snatch an hour from their labors, and see in the stillness of their souls that voice which only the humble can hear, that strength which only the meek can obtain." (James Drummond).

It is not the much speaking, but the sincere speaking, which reaches the throne of God. Your father knows what things you have need of, before you ask him. We do not pray for the sake of telling God our needs; we pray that we may open our hearts to God, may have a real sense of communion with him as his children, and may receive from him the inspiration and aspiration which they give to those who pray aright.

Prayer Should Include Thanksgiving, Ephesians 5:20; I. Thessalonians 5:16-18. Rejoice always. "A joyous temper is closely connected with thankfulness which not only flows forth from every obvious blessing, but in everything finds traces of the love of God, and it is answered by prayer" (Drummond). Pray without ceasing. Prayer may be uttered by the lips or expressed by the life. "Ye are dependent on God for every good; feel that dependence at all times, and ye will always be in the spirit of prayer, and as frequently as possible be found in the exercise of prayer" (Clarke).

In everything give thanks. "It is not to give thanks for everything, but to give thanks in everything." (George Matheson).

When the Aztec Indians first saw Cortez and his mounted men, they believed them to be strange twin beings, for the red men never had seen horses.

## The Time And Place

Must Be Exactly Right Before Britain Strikes At Europe  
Have we got a design for victory? That is the question which is frequently asked. To which the Express replies: And if we had, would we tell our enemy? What is expected of us? It is expected that Mr. Winston Churchill will walk from Downing Street to Trafalgar Square, mount the Nelson Column and from that lofty eminence harangue Hitler in such words as: "We are going to invade you here and there. We are going to beat and bust you by this means and that means. Get all your strength together because we are going to attack you at this point or at that." Did you ever hear such humbug? Of course we have a design for victory. Thoughtful men see its shape. As a nation no doubt we have to bide our time. When we strike it must be on the right front and at the right moment. We will strike with certainty and we must be patient and await that stroke while we build up our strength in field and factory, in ship and in shipyard—London Daily Express.

## Life Span Is Longer

Doctor Gives His Reason For Increase In Heart Ailments

One of the reasons heart disease is increasing in the United States is that people are living longer, says Dr. Paul Dudley White, president of the American Heart Association. Addressing a symposium at Los Angeles he said the life span had increased 18 years since 1900. Hence when persons died in their 20s or 30s of diseases now under control they don't live long enough to develop heart ailments.

## Can Be Prevented

Medical science has advanced so far, according to Dr. Harry Thomson, of Toronto, that "the time is coming when death from diphtheria will be cause for criminal prosecution." Thomson made the statement in an address to the Ottawa Lions Club.

Amsterdam, capital of the Netherlands (before German occupation) is located on about 100 small islands inter-connected by more than 300 bridges.

Health LEAGUE presents TOPICS OF CANADA VITAL INTEREST HEALTH EDUCATION

Public ignorance and apathy in health education and sickness prevention must be overcome if the people of Great Britain and Canada are to become healthy enough to achieve victory over Hitler. Sir Wilson Jameson, chief medical officer of the Ministry of Health for Great Britain, told a meeting held by the Health League of Canada in Toronto recently.

Widespread measures in sickness prevention have prevented serious epidemics in Great Britain, he said, malnutrition is still a terrifying possibility. He said that "proper nutrition will win this war." As a result, his Canadian visit he had learned of a diet fed to expectant mothers which reduced the infant mortality rate. Sir Wilson said that he intends to put this diet into immediate use in Great Britain on his return.

War had shaken the people of Great Britain out of their apathy to some extent, and new and untried methods of health preservation had had fine results, Sir Wilson said. A widespread campaign for the use of toxoid to prevent diphtheria had had encouraging results.

Typhoid, which was expected to be a frightful menace, has not raised its ugly head at all. Every big main in London's 8,000 mile water system has been broken at some time or other since war started, but chlorine, immediately poured into the water, prevented epidemics. There have been occasional flurries of paratyphoid, milder than its big brother, but this was traced to unclean bakeries.

The only two diseases to show any marked increase have been tuberculosis, especially among young women, and industrial poisoning. There has not, in spite of the terrors from the sky, been any big jump in insanity or milder types of mental ailment. British troops can take it, as well as British babies.

Sir Wilson says that the biggest immediate worry is food, which is definitely short. The two most needed foods are meat and cheese. These are especially wanted for workers in heavy industry.

## New Use For Plastic

Britain Trying It For White Line On Roads

Eight 10-inch sections of a new plastic white line have been grafted on to British roads to ease the difficulties of night driving. These permanent white lines are applied to surfaces just like grafting a new skin.

"Wear and tear and weather play havoc with painted lines, and some night lorry drivers complain about the virtual disappearance of what they regard as their main guidance," said a ministry of transport official.

"The new plastic lines are for experimental purposes, and until the new material has been proved, paint will continue to be used."

According to Premier Aberhart's statement, he is compelled to live on a paltry net income from salary of less than \$5,000 a year. Well, he could buy four or five gunysacks and three gophers with that.

How natural to the ordinary human it is to kill a spider, and yet we are told by those who know that spiders are of very great value to man, only a few of them being capable of doing him any harm. As a rule they are the chief hunters and consumers of widely injurious insects that, left alone, would destroy all vegetation in a short time.

Flight Lieutenant Alex. McDowell, son of Mr. S. McDowell, local telephone exchange manager, is patient in a Toronto hospital with a broken leg and other injuries received in a plane crash in Eastern Canada on Wednesday of last week. Alex. only returned from Britain last year to continue his Air Force duties as an instructor in Canada. Two members of the plane's crew met death in the accident.

An editor of a small country weekly newspaper down in Oregon has just quit the business, and in writing his valedictory states: "Forty years hunting news for a country weekly, forty years opening a big armful of exchanges every morning, forty years trying to make ends meet editorially is half a lifetime and more; and I am worn out, satisfied, and have quit, and quit for good. I don't want ever to see a newspaper again."

We were hoping our lead pencil would hold out till Christmas; but no such luck. It is now down to 1/2 inches in length and is really hard to handle. A new one would be very acceptable from any kind-hearted citizen.

Members of the Social Credit party, like members of other lay associations, cannot attend religious ceremonies officially or in a body in Sherbrooke diocese without special permission. Msgr. One of nature's strangest insects is the praying mantis. Useful as she is in destroying many injurious insects, alas for the male of her sex who falls in love with her, their honeymoon is brief—she kills him the day they are married.

A story is told of a Chicago man who one day took an extra big drink of corn whiskey. Shortly afterwards he began to see reptiles and animals in assorted colors. So he rented a room and opened a circus. Many people paid 35 cents admission, and when they saw only an empty room they called a policeman. The policeman came and was going to arrest the man, but the man gave the cop a good stiff drink of the same corn whiskey, and then the policeman paid him \$360 for a half interest in the show.

At the recruiting conference held in Calgary last week we were shown the life of the Canadian soldier. To a young man who wants real training in such trades as that of machinist, welder, engine mechanic, woodworker, etc., the army provides the opportunity. We saw these classes in progress and the work they are doing is simply wonderful. The army needs men, but men without training are worse than useless. This is a concentrated mechanical war and the equipment needed is something terrific—Er.

Several flat cars were loaded with scrap iron at Frank during the week, heading to beat Hitler.

## Thrift BUILDS TANKS

Never before has individual thrift been so vital a factor in our country's history. Every dollar you can save counts in the conduct of this war.

To overwhelm the enemy and hasten a victorious peace the Empire must have a modern, smooth running, hard hitting, fighting machine. But such a machine cannot be built without individual sacrifice—self denial—thrift.

Until this war is won make personal thrift your watchword. Watch your spending. Build up a reserve of fighting dollars out of current earnings. Save for victory.

» This book will help you save. The Royal Bank Family Budget Book shows you how to budget your income, how to save by planned spending. Ask for a free copy at your nearest branch.
